No, there were not 20,000 people in Madison Square Garden last night when the start was called in the six-day go-as-you-please race. But that was because at 11.40 o'clock the big building was packed as full as a sausage case, and Manager O'Brien, of the last great event of the kind ever to occur in the old structure, ordered the doors closed. No one was admitted after that, and fully 2.000 people, envious of the 12.000 or 15.00 who had gained admission, swore red oaths and threatened to boycott the show forever-

Every seat in the house was placarded "Reserved," but at 11.30 they were all occupied at 25 and 50 cents each, and the 25-cent squares of standing room behind the seats were taken, too. A surging mass of people passed over the bridge at the Madison Square entrance to the ground inside the oblong-oral track, and soon it was impossible to make any progress through the crowd here. The stationary crowds immediately became the prey of a host of schemers who lured nickels and dimes from the pockets of the nickels and dimes from the pockets of the nearest members of the "stalled" throng.

THE START. There were knife boards, baseball targets, cane racks, places to buy railroad sandwiches and sawdust pie, soda water fountains, peacut and popcorn stands, candy stands, fruit stands and a bar where 100 bartenders dealt but weiss beer with a flavor like lager, and compounded prescriptions to deceive old topers into the belief that they were drinking bourhor or year.

topers into the belief that they were drinking bourbon or rye.

"Drop a nickel in the slot" caught the people curious of their own weight, their lifting powers and the strength of their lungs, and those who were partial to tuttifrutti chewing gum. A dime paid for a glass of ice surrounded by sarsaparilla, or a very good "two-for" cigar. Floral anchors and horseshoes and stars and wreaths bearing talismanic though trite sentiments worked in the flowers were offered at booths to enthusiasts who would decorate their favorities in the great race on the sawdust ring. In short, it was a Coney Island campaign.

lowed after his gray and rather mangy neck. Blue polka-dot trunks came next and dirty gray drawers and old shoes completed the outfit, barring the hair on his lean old shanks and red ribbon bands and elaborate works of the tattoo artist on his weazened arms. Of course Old Sport got an ovation. He acknowledged it by gracefully kicking up the heels that have done him service for fifty-six years.

Peter Golden, who has been set down as a promising dark horse; W. A. Hoagland, the student "compasses" from Cayuga Lake, in tights of the color known as ashes of roses, and faded red trunks; "Lepper" Hughes in the famous blue shirt bearing the insignia, "Police Gasetie Champion," red trunks and white tights; Dan Herty in brightest of red tights that set off his handsome form and a faded blue cap; George Cartwright, the English champion, in light blue trunks, a striped bodice, striped jockey cap and white tights; Bobby Vint, in a fannel shirt broadly striped with red and gray, crimson volvet shorts, an earnest little chap; Gus Guerrero, the "Gresser," in red velvet trunks, drab tights, and a smile; Connors, a bold-faced boy, in white tights and red trunks; Panchot, the "Buffalo postman," in blue small clothes bordered with white braid, red tights and a white shirt, Hegelman in a red shirt, magenta trunks, black tights, a white head and a jockey cap quartered in yellow and black; Anton Strokel in red trunks, last week's tights and a woebegone expression; Frank Hart, the happy colored boy, in a blue shirt, red trunks, gray tights and an old checkered cap, and the rest of the huddle of ambisicus owners of good legs followed Old Sport into the ring at 11.55.

The starting place was on the north side of the Garden, between the reporters' corral and the row of black dials of the scorers. The men were started in files of six, each file setting out on the journey from a point opposite the dials on which their score was to

"Go!" said Referee Donohue, and forty-seven men broke into gaits fitting their ideas

Gus Guerrero shot to the head. He led the way in that easy, deceptive trot which is so well known, and which he can continue until eternity, his admirers and traducers think, but which he invariably drops after the audience has dwindled to the few people who have the "craze," but no plaudits.

Dan Herty, who is not so graceful, but has Guerrero's determination tenfold, followed close at the Greaser's heels, and Cartwright, the little English "bulldog" champion, took third place, alread of all the rabble behind them.

the little English "bulldog" champlon, took third place, alread of all the rabble behind them.

The excitement in the big crowd of spectators was intense. Superintendent of Garden Police Charles H. Ivins, in a big red satin rosette and badge, and a face full of more concern than screnity, marshalled his fifty special officers and exerted all his powers to keep order in the enthusiastic audience.

On one side of the tracks were the scorers for the audience; on the other those who kept the official record. Callers shouted the number of each "trotter" as he passed under the wire, and the two sets of scorers recorded the lap to his credit. Eight times around the track made a mile, and in exactly 6m. 20s.? Gus Guerrero scored. Dan Herty and George Cartwright were not a second behind, and in half a round the rest of the men had each a mile to his credit.

Hoagland, the only simon-pure heel-andtoe man in the crowd, made his first mile in ten minutes, and his face was troubled, for Guerrero was closing up his second mile.

Each contestant wore a black card on his bosom bearing his number in the race.

Lepper Hughes was the first to cry, "Hold, enough." His old trouble with his feet returned in the second hour, and he retired to his cot at his number in the row of rude huts at the east end of the track to have the weak pedal rubbed and bathed. When he returned, men who did not know his pluck pitied the poor fellow and shook their heads discouragingly, but old John kept on, limping many a turn around the track. a turn around the track.

As the plodders went on in their journey under the eyes of the thousands, the dogged, persevering way in which the long-legged heel-and-toe man, Hoagland, pushed one foot ahead of the other, the gunshot speed and the "business-is-business" air of the "Shoestrings" roused the interest and admiration of the speedators, and he was applauded at every turn. He walked. Every one else ran or trotted, yet at 3 o'clock he was only six miles behind the Greaser, who was still leader of the pack.

Hoagland is anxious to make a match with George Littlewood, the English champion heel and toe walker of the world. Little-wood's record is 9 miles 1,395 yards in 1 hour, wood's record is 9 miles 1,395 yards in 1 hour, and 439 miles 1,720 yards in 94 hours. Hoaging is negotiating for a race with Littlewood for \$1,000 a side, any distance up to 100 miles or 24 hours. About 1,000 of the jostling people found relief in the picketed inclosure reserved for the chagrin of the newspapers, much to the chagrin of the newspaper men who were there for work. At 12.05 the hands on a bigner seed clock located at the starting mark were set back fifteen minutes, and Referee Peter J. Some of the costumes are remarkable, to say the least. "McEvoy's Best" in the race is Keeshon, No. 34 His shirt of white bears several sprigs of shamrock, and a bright green star adorns his breast.

Merritt Stout, the Arab, is a conspicuous figure in the race. He is six feet two in height, broad, bow-legged and sinewy. His knotted wool is gray, and his head is at the top of a flagstaff of a neck. He is dressed in gray knickerbockers, dingy blue shirt, black stockings and immense shoes. His legs look as if they had been accustomed to twine themselves about a cider barrel, and he is carrying out his "slow and easy" plan of campaign.

Sullivan, the "Bangor Ghost," is a long-headed, long-eared, tow-headed young man with a swinging carriage and a forward lean which makes him appear as if his feet were engaged in the discouraging task of catching up with his head.

The atmosphere in the Garden at the start was suffocating. Now the crowd had gone, only a handful of people remaining in their seats, and the morning was gray, cold and cheerless.

Gus Guerrero, true to his nature, retired to his hut and remained there till driven out by his trainer.

The racers are just beginning to feel the first weariness, the hardest to bear of all. Choked by the fumes of stale tobacco and chilled by the raw morning air, they plodded on in a discouraged way. Most of them added to their costumes.

Kisshorn denued a white woollen shirt, decked with more of Erin's color, and bearing the inscription: "A Tipperary Man."

Guerrero ran, when he chose to participate at all, with the same spring as in the beginning. Dan Herty pounded along mechanically, losing no ground, but seemingly without his own volition.

There were only a score of the men on the track at S o'clock, and nearly all of them were taking their breakfast as they ran. Here is a sample breakfast: A bit of toast, a cup of black coffee or cold tea, and an omelet.

Mr. Plummer had sent to Mr. Hall for passes for thirty-three men, half his force, to enable them to go home to breakfast. Mr. Hall had replied that the men could buy their breakfast at the Garden restaurant and then went to bed.

This meant 40 or 50 cents for a cold lunch at Coney Island prices. Mr. Plummer objected, too, and declared that he would take his scoring apparatus out if the men got no passes.

There is considerable disputing over the official scoring by laps on the board. Lepper Hughes made a determined demand for two miles more than he was credited with and got it. Burrill also disputed his placarded score, and Parson Tilly insisted that when his miles were 57 they were marked only 53. The scorers will have a much easier task before many hours, for the 110-mile rule for the first day will knock out many of the contestants.

At 12.40 r. M. Guerrero began a magnificent spurt. He was loudly applianded as he dashed easily and gracefully around the track. This excited Hughes into a run, and then Cartwright started off at a splendid pace. The crowd was thoroughly sroused, and as others of the men felt inspired to spurt, the track presented the most interacting easily and as the contest of the men felt inspired to spurt, the track presented the most interesting aspect of the

the inspiriting effect was instantaneous. The men nearly all began to run, and some of them paired off very prettily. Cartwright and Hegelman ran together nearly a lap. Guerrero got slightly the better of the brush, whereupon the crowd doubled its cheering. At about this time the sunshine suddenly burst in brightly through the windows in the roof of the building, and from a place which had been getting rather dreary the Garden was transformed into a noisy, bustling, almost brilliant scene.

Under all this inspiration the audience seemed to have increased in numbers proportionately to the hightened spirits of the contestants, and, indeed, the attendance had braced up a good deal, promising well for the afternoon.

At 2.30 Guerrero was again running fast. He was loudly cheered. He carried a basket of flowers presented by a lady.

The kicking over the scoring was vigorous. Everybody did some of it. The mistakes in scoring appear to result from confusion and incompetency rather than from dishonest intentions, although one outsider openly accused the management of intending to keep as many men as possible from getting 525 miles.

The crowd has acquired a mania for obsering and every man who increases his pace gets a share of encouragement. Some of them begin to need it badly too. Guerrero, the Mexican, kept gaining stead-ily until, at 3.35 p. m., he had pasted Hegel-man and was in the lead. The crowd cheered wildly.

Everything was new on the desk of the re-cently elected Judge, from the ivory gavel, presented by Edwin Hall, Clerk of Part I. of the General Sessions, to the small but useful calendar, the giver of which remains un-

nown.
Judge Martine entered the room slowly and with the dignity becoming his office. He wore a black cutaway c at, loose light trousers, a low collar and a polka dot tie. A large and brilliant diamond flashed its rays from its position on the third finger of His Honor's left hand.

Then the first case was called. Mr. Sevard, colored, was charged with selling liquor in a club-room on Twenty-sixth street without a license.

Lawyer McClelland asked that the case be dismissed on the grounds of the respectability of the defendant and the smallness of the offense, when it was considered that liquor was sold without license in all clubrooms. Judge Martine granted a hearing after

SQUIRE'S TRIAL OFF AGAIN.

Maurice B. Flynn Wants to be Tried for Conspiracy All by Himself.

One of the most punctual of the judges on the New York Supreme Court Bench is Abraham R. Lawrence, who opened the Court of Oyer and Terminer this morning.

He was promptly on the bench at 10.80 o'clock, and at the same time the deposed post of the Public Works Department, Rollin M. Squire, sat down at the table reserved for defendants. With him were his

ROLLIN M. SQUIRE. counsel, William F. Howe, big and bediamonded, and little Abe H. Hummel, trying to reach the shoulders of his partner with the aid of Louis XIV. heels. The offense charged is conspiracy by enter-

ng into an illegal agreement by which, in consideration of the control of appointments and dismissals in the Department of Public

Works, Maurice B. Flynn was to use his in-fluence to secure the appointment of Squire to the head of that department.

It is expected to prove this by a letter written by Squire, Dec. 26, 1884, directed to Flynn and promising the power of appoint-ment and removal for

his services.
Squire's defense is
that Hubert O. Thompson wanted such a letter: that it was drawn ter: that it was drawn
up, but that he refused
to give it, and asked
that it be destroyed,
and thought that it
had been till Thompson produced it
against him.
It was a trial of up.

It was a trial of un-usual importance, so important, indeed, MAURICE B. FLYNN. that it brought Chief Clerk John Sparks and his sonorous voice from his office in the General Sessions building to open the pro-ceedings. He resigned his seat to Clerk Walsh after that ceremony was over. Ex-Judge Noah Davis, counsel for Mau-rice B. Flynn, demanded a separate trial for his cheet.

rice B. Flynn, demanded a separate trial for his client.

Col. Fellows insisted that it was necessary to try both defendants together.

Lawyer Howe wanted to interpose a de-murrer in behalf of Squire.

Judge Lawrence reserved decision and ad-journed the case two weeks.

FOUR CIGAR-MAKERS ARRESTED. Charged with Conspiracy While Doing Picket

Daty, but Soon Released. Considerable excitement was caused among the striking cigar-makers this forenoon by the arrest of four of their pickets at Ottenberg & Bros.' factory, Second avenue and

Twenty-second street. Herman Ottenberg, a member of the firm. was the complainant. The prisoners were Carrie Meyers and Mary Haverach and two men, and at the Yorkville Court they were charged with conspiracy. One of the women was also accused of assaulting a female worker on her way to the factory.

Justice Welde discharged the prisoners. The arrests led to a big meeting of the strikers at Rose Hill Hall. Second avenue, near Twenty-fourth street, and several speakers denounced the Ottenbergs. The pickers who had been arrested were detailed again for the same duty.

There is no change in the situation to-day.

Cigar-Makers to Meet To-Night. A meeting of Cigar-Makers' International Union No. 144, will be held to-night, when the subject of the proposed abolition of the revenue tax on cigars and tobaceo will be discussed. There is a division and tobacco will be discussed. There is a division of opinion on the question among the egar-makers, and the action of the meeting to night will indicate the sentiment of 144, which is one of the largest organizations in the traite. Union No. 10 will meet to-morrow night to discuss and act upon the

Judge Andrews to-day granted an application to reopen the hearing in the suit to restrain Lillian Oldott from playing "Theodors," on condition that she gives a bond of \$1,000 not to produce the play pending a decision.

BISMARCK'S WORDS

PRICE ONE CENT.

He Admits That the Situation Appears Serious.

But He Does Not Think France or Russia Will Attack.

Thousands Hear the Iron Chancellor's speech in the Reichstag Te-Day-Russian Newspapers Are Not Reliable, He Says, and He Believes the Czar Abso-Intely-France Not Looking for War, Having Elected a Peace-Loving President.

BERLIN, Feb. 6.—Reichstag Palace and the surrounding streets were thronged with people to-day who wanted to hear what Prince Bismarck had to say on the Military

Among the spectators were Prince William of Prussia and Prince Leopold.

Prince Bismarck was greeted with great enthusiasm as he arose to speak at 1.25 P. M. He said: "I don't believe I can add anything to the true state of the case regarding the bill. I do not address you on that account. My object is to speak of the general situation of Europe. I may confine myself to referring to what I said on the same subject over a year ago. There has been very little change since then, when I feared war with France. Since then France has elected a peace-loving President and a pacific disposition has prevailed, I can, therefore, reassure the public that so far as France is concerned the prospect has become more peaceful.

become more peaceful.

"Regarding Russia also, I am of no other opinion than when I said that we have to apprehend no attack from Russia. The situation must not be judged from press com-

ments.

"The Russian newspapers I do not believe, I believe the Czar's word absolutely. The situation on the whole is not different from that of 1879. I grant that the concentration of Russian troops on the frontier may appear serious, but I perceive no cause or pretext for a Russian or an European war. Russia has no interest to conquer Prussian or Austrian provinces.

has no interest to conquer Prussian or Austrian provinces.

"Indeed, I go so far in my confidence as to say that even a war with France would not necessitate a war with Russia, although the latter eventually would involve the former.

"It is true that I cannot demand an explanation from the Russian Office regarding the concentration of troops on the frontier, but having been well acquainted with Russia's foreign policy for a generation I may have my own opinion on the matter. I believe the Russian Cabinet intends to make Russia's voice heard at the next European crisis, and therefore wishes her armies as far westward as possible."

EXCISE CASES ESPECIALLY. Judge Cowing Lays Street on Them to His Course to the Grand Jury.

Cowing, in Part I of the Sessions Court, to-day swore in the Grand Jury for the February term, selecting George Griswold Haven as foreman. He charged Griswold Haven as foreman. He charged them especially in regard to excise cases.

The placing of a sheet over a bar to keep the bottles concealed until required for use was not, he said, an observance of the law, nor was a person liable to punishment when taken in custody after opening his store to a detective in response to repeated knocks, if there was no sale of liquor going on.

His Honor concluded by saying that he would be ready at any time to instruct the Grand Jury upon any point of law which they might be in doubt about in excise cases.
